

NSS students contributed to the awareness regarding COVID. Distributed Masks & encouraged awareness regarding social distancing in the masses.

3. MASK MAKING AND DISTRIBUTION: PIA KUSHWAHA, RAMGARH COLLEGE, RAMGARH

As we all know that at present, the whole world is struggling with the Corona virus (COVID -19), which includes our country India too. It is very important for all of us to avoid social gathering and to maintain social distance including washing our hands frequently with soap or sanitizer and the most important thing is to put a mask on our face.

So when I saw a lot of people in my village walking around without applying masks on their faces. So as being a responsible Volunteer of NSS without being late I decided to make masks at home because I have sewing machine and make people aware of wearing masks by distributing it to the people around me. That's why I made more than 50 masks at home and distributed them to the people around and appealed them to always put it on face while going out and also told them to keep social distance, wash your hands frequently with soap.

I am thankful to my college's NSS, P.O. Dr. Kamna Roy and NSS Volunteer Vikas Kumar for inspirinf me to this work and to my parents and my younger sister who helped me to prepare it. Now being inspired from my activity the other girls of my locality are also making masks at their home and distributing it towards needy one.
