Science and English Department Ramgarh college organize webinar

MANOJ SINHA

RAMGARH: A joint webinar on Covid-19: Challenges in Higher Education was organized at Ramgarh college.

Students of science and science (English) performed together. This webinar was organized by the Cisco Webex Meetings application, which was hosted by Dr. Bakshi Sinha. The speaker of this webinar were

Dr. PB Tiwari (Associate Professor, SMPG College, Moradabad, UP) and Dr. Shailesh Verma (Assistant Professor, Gov. JYPG College, Raipur, Chhattisgarh). At the commencement of this webinar, Dr. Bakshi gave his welcome speech and welcomed everyone to this webinar. Principal Dr. Mithilesh Kumar Singh gave a speech and boosted everyone's morale, and told about fighting the corona virus in this difficult time and asked everyone to cooperate with each other. We all can help everyone in this difficult time.

Spokesperson Dr. PB Tiwari gave information about how to avoid and fight the corona virus. He also told some home remedies like decoction etc., so that we can increase immunity in our body. He also said that in this lockdown we are getting a chance to read with new technology. Dr. Shailesh Verma said that in this difficult time, teachers and students are getting a new platform to read, like web conferencing, WhatsApp media, studying via email, reading in PDF format, by studying all these new technologies. We are also getting the opportunity to read and teach from a new perspective. Everyone has an Android phone nowadays, and it is not just the phone but the magic wand. One can do everything, the information you need, you can get information by searching directly on Google or YouTube. Dr. Narendra Prasad thanked all the teachers and students for joining this joint webinar and this joint webinar was awaited.

Organizers of this webinar were Dr. LKKN Sahdev (Department of Mathematics), Dr. Rekha Prasad (Department of Chemistry), Dr. Ratna Pandey (Department of English), Dr. Bakshi Sinha (Department of Physics), Dr. Upadhyay (Department of Zoology). A total of 120 participants joined this joint webinar and the students also kept peace and let this joint webinar be completed without any hassle.
